

Phrase-templates for research papers

INTRODUCTION

R & d and the rationale of choice of topic

The present research work deals with...

Have you thought ever why...? I paid attention to.../ thought about this question when ...

I always wondered why ...

The desire to learn ... came to me as a child. I was interested in...

The theme of our work: "...". I chose this topic for research because...

In the future I would like to connect my life with ... so now interested in... and chose... as the subject of his research.

I became interested in ... after one day...

When I... I was amazed / I was wondering...

The relevance

... has today become an integral part of our lives. We use... without thinking...

The topicality of our work is determined by what is currently ...

In the modern world ... is of great importance, as...

In recent years we often hear and use the word...

Many are interested in/ keen on/ think...

The problem today... is one of the most urgent, because...

Question ... in recent years is in the focus of the research...

The topic is the subject of lively debate...

The reason is that... affects our health / mood / success

... The problem has attracted much attention of scientists and the public due to the fact that...

Recently appeared... and people began to ponder...

Probably everyone at least once in life thought about the fact...

... always made people a lot of questions...

Today, there are two opposing views on this issue...

Today there is debate / there is no consensus on this issue...

Novelty

Today, there are works devoted...at all. However, we decided to study this subject in their own class/school and this is the novelty of our study.

Purpose

Purpose - figure out why...

The main goal of the paper is to answer the question... / prove that ...

Tasks

To achieve this goal we need to solve the following tasks:

To achieve this goal we have set ourselves the following tasks:

Objectives:

The tasks are:

To study literature on the topic

Find out the meaning of the terms ...

Find examples / collect stuff .../ to examine .../ to measure the level...

Conduct a survey / experiment / observation

To compare/ to match /analyse the results

To draw conclusions about ...

CHAPTER

The first Chapter (theoretical).

Basic terms and concepts, background.

Key concepts for our study is

... is called ...

On the official website... we find the following definition of the term ... "..."

Ivanov V. V. in the book ... defines ... as...

Petrov V. V. understand by the term ...

Sidorov S. S. is considering ... like ...

A. A. Andreev in the book "... " gives the following definition...

...

The site ... offers the following definition:...

In Ivanov's article "... " in the "... " says that ...

It is considered that...

Well-known is considered...

First look at the history of the issue...

Background detailed on the pages of modern encyclopedias, for example... and on the website for the First time...

From the book ... we learned that...

According to Ivanov I. I. ... article... "...", ...

According to Ivanov Vladimir ...

Perhaps this is due...

In addition,...

It is interesting that...

Common is the opinion that...

It is necessary to emphasize that...

The second Chapter is a description of the study

In order to find out... we decided to conduct a survey among students... / parents in our class. The survey was conducted using a questionnaire / survey on the social networks. In the survey participated ... students ... and parents.

Respondents were asked the following questions: ...

The study was conducted on the material...

As the material for the study, we took

Source of examples of steel...

The results of the survey are presented in table 1.

In figure 2 you can see...

Figure 3 shows...

In this case, we see .../ dealing with ...

It should be noted ...

Noteworthy is the fact that...

Chart shows...

FINDINGS, CONCLUSION

Conclusions Chapter by Chapter

Based on the foregoing, we can state...

All of the above enables us to draw the following conclusions: ...

Thus, we see...

Therefore...

It is obvious that...

As you can see from all the above...

From the above it follows that...

Summing up the above, the following should be noted...

Summing up Chapter 2 you should emphasize...

Summarizing intermediate results, we can say that...

In the study we found that...

In conclusion, it should be noted...

The research allowed us to draw the following conclusions...

The main conclusion that I did: ...

In the course of the study were identified/ found that ...

Thus, we have seen...

All of the above proves that ...

Based on the foregoing it is logical to assume that ...

All of the above convinces us that ...

We think the most plausible version of... because...

Found and analyzed examples allow us to identify the following pattern: ...

Conclusion.

Prospects for further research

Prospects for further research of the problems we see in the more detailed/ thorough examination...

In the future it would be interesting...

In our view it would be interesting to examine/ to investigate/ to consider ...

Except... considered in this paper, in our view it would be interesting to study...

The work considers only one aspect of the problem. Research in this direction can be continued. This could be the study of not only ... but also...

The purpose of the work

The study can be useful and interesting to students in schools who are addicted ... and anyone who is interested in...

The results of our study could help the guys in ...

The work may be of interest to ...

The results of the study can be used by teachers in preparing lessons / contests / quizzes on the topic

The work can be used for further research ...

With my work I wanted to attract the attention of classmates to the problem...

The practical importance of research consists that its results formed the basis of the rules developed by me... / memo for ... for...

What gave the work to the researcher

In the process of writing work I found out/ learned/ discovered/ found out...

Work has helped me understand / realize / solve the problem / new look...

In the process of this research I have gained experience... Think the knowledge I'm getting will allow me to avoid mistakes / will help ...

The results of the study made me wonder...

Most of the difficulties have caused me ...

The study radically changed my opinion / view ...
